Name of the Scheme	Baroda BNP Paribas Dynamic Bond Fund (BBNPPDBF) (erstwhile BNP Paribas Flexi Debt Fund. Name changed w.e.f. March 14, 2022)			
Type of the Scheme	An Open ended Dynamic Debt Scheme investing across duration. A Relatively High Interest Rate Risk and Moderate Credit Risk Scheme.			
'Category' as per SEBI circular dt. October 06, 2017	Dynamic Bond			
Scheme Code	BBNP/O/D/DBF/04/07/0005			
Date of Inception	September 23, 2004			
Investment objective	The primary objective of the Scheme is to generate income through investments in a range of Debt and Money Market Instruments of various maturities with a view to maximising income while maintaining an optimum balance between yield, safety and liquidity. However, there can be no assurance that the investment objectives of the Scheme will be realized. The Scheme does not guarantee / indicate any returns.			
Asset Allocation Pattern	Under normal circumstances, the asset allocation under the Scheme would be as follows:			
	Type of Instruments	Minimum Allocation (% of Net Assets)	Maximum Allocation (% of Net Assets)	Risk Profile
	Investment across duration in Debt & Money Market instruments	0	100	Low to Medium
	Units issued by REITs & InvITs	0	10	Medium to High
	<p>Debt instruments may include securitized debt upto 50% of the net assets.</p> <p>Exposure in interest rate derivatives shall be limited upto 50% of the debt assets only for hedging and portfolio balancing. The Scheme may invest on Credit Default Swaps (CDS) and the exposure in CDS transactions shall not exceed 15% of the net assets of the Scheme. In accordance with SEBI Circular No. CIR/IMD/DF/23/2012 dated November 15, 2012, exposure to a single counterparty in CDS transactions shall not exceed 10% of the net assets of the Scheme and the total exposure related to premium paid for all derivative positions, including CDS, shall not exceed 20% of the net assets of the Scheme. Further provided that the exposure in interest rate derivatives and CDS shall not exceed 50% of debt assets.</p> <p>In terms of SEBI circular No. SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 1, 2019, the Scheme may invest into debt instruments having Structured Obligations / Credit Enhancements upto 10% of the debt portfolio of the scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio.</p> <p>The Scheme may invest in foreign debt securities including foreign securitised debt upto 20% of the net assets.</p> <p>The Scheme will not invest in equity, equity related securities and foreign equity securities including ADR / GDR. The scheme will not indulge in short selling and securities lending and borrowing.</p> <p>In accordance with provisions of SEBI Circular No. CIR/IMD/DF/19/2011 dated November 11, 2011 and SEBI Circular No. CIR/IMD/DF/23/2012 dated November 15, 2012 and as amended from time to time, the Scheme may enter into repo in corporate debt securities and the gross exposure to repo transactions in corporate debt securities shall not be more than 10 % of the net assets of the scheme.</p> <p>The scheme may invest upto 10% of the debt portfolio of the scheme (with not more than 5% of the debt portfolio of the scheme issued by a single issuer) in debt instruments with special feature of subordination to equity (absorbs losses before equity capital) and shall not invest in debt instruments with special feature of convertible to equity upon trigger of a pre-specified event for loss absorption. The investments in debt instruments with special feature shall be subject to prudential limits as prescribed under SEBI circular SEBI/HO/IMD/DF4/CIR/P/2021/032 dated March 10, 2021 or such other circular issued by SEBI from time to time.</p> <p>The cumulative gross exposure through debt, derivative positions, repo transactions and credit default swaps in corporate debt securities, other permitted securities/assets and such other securities/assets as may be permitted by SEBI from time to time (subject to prior approval from SEBI, if any) will not exceed 100% of the net assets of the Scheme.</p> <p>It may be noted that AMC has to adhere to the asset allocation pattern indicated in the Scheme Information Document under normal circumstances.</p>			
Investment	The net assets of the Scheme will be invested in debt and money market instruments. The debt			

Strategy	<p>portion of the portfolio will be actively managed based on the AMC's view on interest rates. The price of fixed income instruments varies with changes in interest rates. As interest rates decline, the value of fixed income securities rise and as interest rates rise, their value declines. The AMC forms views on the likely direction of interest rates and the portfolio is structured consistent with these views. This may involve active duration management to take advantage of any opportunities that may arise on account of interest rate movements. The portfolio shall be thus actively managed to capture the spread and duration gains with a strong focus on credit quality of instruments. By actively managing the portfolio, the Scheme attempts to achieve its objective through both interest yield and capital appreciation. As such, the Scheme may not invest solely based on the best available yields in the market at all points in time. The Scheme aims to provide investors with an actively managed portfolio of debt & money market instruments.</p> <p>Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the valuation of Portfolios. The risk of loss on account of such active and dynamic management can thus be substantial. The extent of change in price shall depend on the rating, tenor to maturity, coupon, liquidity, and the extent of fall or rise in interest rates. Individual instruments are bought and sold based on the conformity with the interest rate view and the instrument specific factors (credit risk, exposure, etc.). The Government securities carry zero credit risk, but they carry interest rate risk like any other Fixed Income Securities. The portfolio may also include other liquid assets and other short maturity assets, especially in times of rising interest rates.</p>
Risk Profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Standard Risk Factors</p> <ul style="list-style-type: none"> - Investments in mutual fund units involves investment risks such as market risk, credit & default risk, liquidity risk, trading volumes, settlement risk, including the possible loss of principal. - As the price/ value/ interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in the stock markets, bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the companies and issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc. - Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee future performance of the scheme. - Baroda BNP Paribas Dynamic Bond Fund is the name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns. - The sponsors / associates are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 10,00,000/- (Rupees ten lakh only) to the corpus of the Mutual Fund made by it towards setting up the Fund. - The present scheme is not a guaranteed or assured return scheme. <p>Scheme Specific Risk Factors:</p> <p>Market Risk: All mutual funds and securities investments are subject to market risk and there can be no assurance / guarantee that the scheme's objectives will be achieved. The securities that the scheme invests in would be exposed to price changes on a day-to-day basis. These price changes may occur due to instrument-specific factors as well as general macroeconomic conditions. Markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments. The scheme may be subject to price volatility due to factors such as interest sensitivity, market perception, and creditworthiness of issuer and market liquidity. Different parts of the market can react differently to these developments. The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.</p> <p>Concentration Risk:</p> <p>The scheme may pursue only a limited degree of diversification. It may invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and</p>

this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

Risks associated with investing in fixed income securities:

1. Credit and Counterparty risk:

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations).

Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts.

The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit and counterparty risk as well as any actual event of default. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security value.

2. Liquidity Risk:

The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests.

A lower level of liquidity affecting an individual security or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the Fund's ability to sell particular securities quickly enough to minimise impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic/corporate event.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all of the investments and may affect the liquidity of the investments of the scheme.

The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.

3. Interest Rate Risk & Re-investment Risk:

The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the Scheme generally will vary inversely with the changes in prevailing interest rates. In general, price of debt and fixed income securities go up when interest rates fall, and vice versa. Securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security. The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

4. Sovereign risk:

The Central Government of India is the issuer of the local currency debt in India. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying least probability of a default, such securities are known as securities with sovereign credit. It also implies that the credit risk on such Government securities is even lower than that on non-government securities with "AAA" rating and hence yields on government securities are even lower than yields on non-government securities with "AAA" rating.

Risk associated with investment in unrated instruments:

The scheme may invest in lower rated/unrated instruments considering the overall risk of the portfolio. This may increase the absolute level of risk of the portfolio. The credit risk & liquidity risk will be relatively higher for lower/unrated instruments as compared to the instruments that have been assigned investment grade ratings. Lower rated/ unrated securities also tend to be more sensitive to economic conditions than instruments that have been assigned investment grade ratings.

Risks associated with Securities Lending:

The risks in lending portfolios securities as with other extensions of credit consist of the failure of

another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Schemes and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

Risks associated with investing in securitised debt:

The scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). ABS means securitized debts wherein the underlying assets are receivables arising from personal loans, automobile loans, etc. MBS means securitized debts wherein the underlying assets are receivables arising from loans backed by mortgage of properties which can be residential or commercial in nature. ABS / MBS instruments reflect the undivided interest in the underlying of assets and do not represent the obligation of the issuer of ABS / MBS or the originator of the underlying receivables. The ABS / MBS holders have a limited recourse to the extent of credit enhancement provided. Securitised debt may suffer credit losses in the event of the delinquencies and credit losses in the underlying pool exceeding the credit enhancement provided. As compared to the normal corporate or sovereign debt, securitized debt is normally exposed to a higher level of reinvestment risk. For further details, please refer SID.

Risk associated with investments in derivatives (including Imperfect Hedging with Investments in Interest Rate Futures(IRFs)):

The Scheme may use various derivative instruments and techniques, permitted within SEBI Regulation from time to time only for portfolio balancing and hedging purpose, which may increase the volatility of scheme's performance. Usage of derivatives will expose the scheme to certain risks inherent to such derivatives.

Derivative products are specialized instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. There is a possibility that a loss may be sustained by the Scheme as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, interest rates and indices. Even a small price movement in the underlying instrument could have a large impact on their value. This could increase the volatility of the Scheme's performance.

In case of hedge, it is possible that derivative positions may not be perfectly in line with the underlying assets they are hedging. As a consequence the derivative cannot be expected to perfectly hedge the risk of the underlying assets. This also increases the volatility of the Scheme's performance.

Some of the risks inherent to derivatives investments include:

- **Price Risk:** Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.
- **Default Risk:** This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.
- **Basis Risk:** This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset.
- **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- **Liquidity risk:** This risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

Risk factors associated with investments in Credit Default Swaps:

Credit default swap is the most common form of credit derivative where the buyer of the swap makes payments to the swap's seller until the maturity date of a contract. In return, the seller agrees that – in the event that the debt issuer defaults or experiences another credit event – the seller will pay the buyer the security's value as well as all interest payments that would have been paid between that time and the security's maturity date. The Scheme may participate in credit Default Swaps (CDS) as a buyer (protection buyer) to hedge/offset credit risk related to fixed income instruments. It is important to note that the credit risk isn't completely eliminated – it has been shifted to the CDS seller. The risk is that the CDS seller defaults at the same time the credit event occurs. In case the debt issuer does not default or no credit event occurs till maturity of CDS contract, the buyer will end up losing money through the payments on the CDS.

Risks associated with Foreign Securities

The Scheme may invest in Foreign Securities including overseas debt / equities / ADRs / GDRs with the approval of RBI/SEBI, subject to such guidelines as may be issued by RBI/SEBI. The net assets, distributions and income of the Scheme may be affected adversely by fluctuations in the value of certain foreign currencies relative to the Indian Rupee to the extent of investments in these securities. Repatriation of such investment may also be affected by changes in the regulatory and political environments. Market risks can be greater with respect to political instability, lack of complete or reliable information, market irregularities or high taxation. The Scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuers. The liquidation of securities where investments will be made by the schemes shall be subject to the liquidity / settlement issues of the country of investment / settlement. Non-business days in country of investment / settlement may impact the liquidity of the scheme investments.

The Scheme may, where necessary, appoint advisor(s) for providing advisory services for such investments. The appointment of such advisor(s) shall be in accordance with the applicable requirements of SEBI. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, transaction costs and overseas regulatory costs, the fees of appointed advisor(s). The fees related to these services would be borne by the AMC and would not be charged to the Scheme.

Risks associated with repo transactions in corporate debt

Risk factors associated with investments in repo transactions in corporate debt:

The Scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount. The risk is further mitigated through over-collateralization (the value of the collateral being more than the repo amount).

Risk factors associated with investments in REITs and InvITs:

- **Price Risk / Market Risk:** REITs and InvITs Investments are volatile and subject to price fluctuations on a daily basis owing to factors impacting the underlying assets. The valuation of the REIT/InvIT units may fluctuate based on economic conditions, fluctuations in markets (eg. real estate) in which the REIT/InvIT operates and the resulting impact on the value of the portfolio of assets, regulatory changes, force majeure events etc. REITs & InvITs may have volatile cash flows. As an indirect shareholder of portfolio assets, unit holders rights are subordinated to the rights of creditors, debt holders and other parties specified under Indian law in the event of insolvency or liquidation of any of the portfolio assets.
- **Liquidity Risk:** As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes, settlement periods, dissolution of the trust, potential delisting of units on the exchange etc, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. Further, there is no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the units could be infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities for which a liquid market exists
- **Risk of lower than expected distributions:** The distributions by the REIT or InvIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/InvIT receives as dividends or the

interest and principal payments from portfolio assets. The cash flows generated by portfolio assets from operations may fluctuate based on, among other things:

- success and economic viability of tenants and off-takers
- economic cycles and risks inherent in the business which may negatively impact valuations, returns and profitability of portfolio assets
- force majeure events related such as earthquakes, floods etc. rendering the portfolio assets inoperable
- debt service requirements and other liabilities of the portfolio assets
- fluctuations in the working capital needs of the portfolio assets
- ability of portfolio assets to borrow funds and access capital markets
- changes in applicable laws and regulations, which may restrict the payment of dividends by portfolio assets
- amount and timing of capital expenditures on portfolio assets
- insurance policies may not provide adequate protection against various risks associated with operations of the REIT/InvIT such as fire, natural disasters, accidents.
- **Interest Rate Risk:** Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase.
- **Reinvestment Risk:** Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.
- **Regulatory/Legal Risk:** REITs and InvITs being new asset classes, rights of unit holders such as right to information etc may differ from existing capital market asset classes under Indian Law.

The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

Risks associated with segregated portfolio:

1. Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
2. Security comprises of segregated portfolio may not realise any value.
3. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.
4. Trading in the units of segregated portfolio on the Exchange may be halted because of market conditions, including any halt in the operations of Depository Participants or for reasons that in view of the Exchange Authorities or SEBI, trading in the units is suspended and / or restricted. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange rules of 'circuit filter'. There can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged.

Risk Factors associated with investing in debt instrument securities with special features:

Pursuant to SEBI Circular dated March 10, 2021, the schemes may investment in securities having special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a pre-specified event for loss absorption. Such special features may be available under the Additional Tier I bonds and Tier 2 bonds issued under Basel III framework.

These securities having special features will carry and be subject to all the risks associated with the investment in Fixed Income securities like Credit and Counterparty Risk, Liquidity Risk, Interest Rate Risk etc. However investors are requested to note that as these securities are subordinate to all other Fixed Income securities issued by an issuer and only senior to common equity, such securities with special features are more riskier than other Fixed Income Securities of the same issuer.

Credit Risk: Where the payout of interest or principal amount is due to be paid by an issuer for senior debt securities and for securities with such special features, such payout for the securities with special features would normally happen only after paying off all the senior debt dues. This increases the risk that the Issuer of the securities with special features may default on interest and /or principal payment obligations and/or default upon violation of covenant(s) and/or delay in scheduled payment(s)

	<p>Liquidity Risk : The securities with special features can normally be considered to have limited secondary market liquidity as compared to any senior debt of the issuer, and thus fund manager may be forced to hold such securities with special features till its maturity. Further, where the special features results in trigger and conversion to equity securities, such equity security received by the scheme(s) upon conversion will carry and be subject to all the risks associated with the investment in equity securities.</p> <p>Risk Factors associated with investments in debt instruments having Structured Obligations / Credit Enhancements: The risks factors stated for debt instruments having Structured Obligations / Credit Enhancements are in addition to the risk factors associated with fixed income instruments:</p> <ul style="list-style-type: none"> • Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer • SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold • The credit risk of debt instruments which are CE rated derives rating is based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk. <p>Other Risks Other risks including risk associated with inflation, legal risk, taxation risk, valuation risk & operational risk & risk factors associated with processing of transaction in case of investors investing in mutual fund units through Stock Exchange Mechanism as provided in Scheme Information Document.</p> <p>Investors in the Scheme are not being offered any guaranteed returns. Please refer to SID for more details on scheme specific risk factors.</p>
Risk Control Measures	<p>Investments made by the Scheme would be in accordance with the investment objective of the Scheme and the provisions of the SEBI (MF) Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. While allocating and choosing securities, the Investment Manager will aim to diversify by gaining broad exposure to different industries and companies in order to reduce risk.</p> <p><u>Risk Mitigation measures for investments in debt instruments</u> The investments in debt and Money Market instruments would be undertaken after assessing the associated credit risk, interest rate risk and liquidity risk. The AMC shall undertake credit evaluation of each investment opportunity and invest in rated papers of companies having a sound background, strong fundamentals and quality of management and financial strength. In addition, the Scheme would endeavor to invest in instruments with a relatively higher liquidity and will seek to manage the duration of the debt assets on proactive basis to manage interest rate risk and to optimize returns. The following table summarizes the risk mitigation/management strategy for the Debt assets of the Scheme.</p>

Risk & description specific to Debt	Risk Mitigation/ management strategy
Interest Rate Risk	The duration of a portfolio is one of the means of measuring the interest rate risk of the portfolio. Hence portfolios with higher duration will have higher interest rate risk. The duration of the Scheme will be actively managed based on prevailing macroeconomics condition, political environment, liquidity position in system, inflationary expecorations and other economic considerations.
Credit Risk	The credit evaluation of the AMC entails evaluation of credit fundamentals of each investment opportunity. Some of the factors that are evaluated inter-alia may include outlook on the sector, parentage, quality of management, and overall financial strength of the credit. The AMC will utilize ratings of recognized rating agencies as an input in the decision making process. To reduce credit risk, the scheme shall Invest in debt and money market instruments that have been assigned high investment grade ratings by a recognized rating agency.
Liquidity Risk	Liquidity risk is the risk of not being able to sell / liquidate a security at short notice at prevailing market prices or without incurring impact cost. Liquidity Risk can be partly mitigated by creating portfolios that are diversified across maturities, ratings, types of securities, etc. in line with the fund objectives, regulations and investment strategy. The Scheme shall follow the asset allocation pattern in Scheme Information Document under normal circumstances and residual cash may be invested in the Tri-party repo on Government Securities and treasury bills, repo market, units of mutual fund which seeks to ensure liquidity in the scheme under normal circumstances.
Volatility Risk	There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The Scheme will manage volatility risk through diversification. To that extent, the volatility risk will be mitigated in the Scheme.
Concentration Risk	The AMC will attempt to mitigate this risk by maintaining adequate diversification across issuers/ sectors / instrument type in line with the scheme objectives, investment strategy and applicable regulations. This will also be managed by keeping prudent investment limits on any particular industry or issuer or issuer group based on the size, credit profile, etc. to reduce issuer or industry specific risk.
	<p>The scheme may utilize derivative instruments for hedging & portfolio balancing purposes. All Interest Rate Swaps will be undertaken with approved counter parties under pre-approved International Swaps and Derivatives Association (ISDA) agreements. The scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI for the purpose of hedging and portfolio rebalancing.</p> <p>The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in Scheme.</p>
Plans & Options	<p>The Scheme offers following two plans:</p> <ul style="list-style-type: none"> • Baroda BNP Paribas Dynamic Bond Fund – Regular Plan • Baroda BNP Paribas Dynamic Bond Fund - Direct Plan <p>Each Plan offers Growth Option, Daily Income Distribution cum Capital Withdrawal (IDCW) Option* with compulsory Re-investment, Weekly Income Distribution cum Capital Withdrawal (IDCW) Option* with compulsory Re-investment, Monthly Income Distribution cum Capital Withdrawal (IDCW) Option*, Quarterly Income Distribution cum Capital Withdrawal (IDCW) Option* and Half-Yearly Income Distribution cum Capital Withdrawal (IDCW) Option*. The Monthly IDCW, Quarterly IDCW and Half-Yearly IDCW Options offer Payout and Re-investment facilities</p> <p>There shall be a single portfolio under the scheme.</p> <p>Direct Plan is meant for direct investments, i.e., for investors who purchase/subscribe to the units of Scheme directly with the Fund and is not available for investors who route their investments through a Distributor, while Regular Plan is meant for investors who route their investments through distributors only.</p> <p>*Amounts under IDCW option can be distributed out of investors capital (equalization reserve), which is part of sale price that represents realized gains. However, investors are requested to</p>

note that amount of distribution under IDCW option is not guaranteed and subject to availability of distributable surplus.

Growth Option: The scheme will not declare any distribution under this option. The income attributable to units under this option will continue to remain invested in the option and will be reflected in the Net Asset Value of Units under this option

IDCW Option:

Under IDCW Options, the distribution amounts, if any, shall be declared by Trustees from time to time. The NAV of the unit holders in any of the IDCW options will stand reduced by the amount so distributed and statutory levy, if any, under said IDCW option. The NAV of the Growth Option will remain unaffected.

Following shall be the record dates for the purpose of declaration of distribution rate under the IDCW options of the scheme:

Sr. No.	IDCW frequency	Record Date
1.	Daily IDCW	Every Business day
2.	Weekly IDCW	Every Monday (or the next business day, if Monday is not a business day).
3.	Monthly IDCW	27th [^] of the same month. [^] or the next business day, if that day is not a business day.
4.	Quarterly IDCW	At the discretion of Trustee, to be recommended by Dividend Committee.
5.	Half yearly IDCW	

**If the last Thursday as stated above is a non-business day, then the preceding business day shall be considered as record date for the purpose of declaration of distribution rate.*

It may be noted that the amount of distribution, if any, under IDCW option will be subject to the availability of distributable surplus as computed in accordance with the SEBI Regulations and discretion of the Trustees/ AMC.

Investors are further requested to note that the AMC will endeavor to declare distribution rates under IDCW options on the aforesaid record dates. There is no assurance or guarantee to unitholders as to the rate of distribution nor that the amounts shall be distributed regularly. The Trustees / AMC reserve the right to distribute the amounts under IDCW option in addition to the above stated frequency and/or change the aforesaid record dates from time to time. The Trustee's/AMC's decision with regards to the rate, timing and frequency of distribution shall be final. In case of such additional declaration, if any, the distribution policy (i.e. dividend policy) shall be ensured. The AMC may announce a book closure period for the purpose of distribution of amounts under IDCW option. Amount of distribution, if declared, will be paid to the unit holders appearing in the register of unit holder on the Record Date. To the extent the entire net income and realised gains are not distributed, the same will remain invested in the option and will be reflected in the NAV.

Unitholders opting for the IDCW Option may choose to reinvest the amounts to be received by them under IDCW option in additional Units of the said Option. The amount reinvested will be net of tax deducted at source, wherever applicable. The amounts so reinvested shall constitute a constructive payment of the income distribution cum capital withdrawal under IDCW option to the Unitholders and a constructive receipt of the same amount from each Unitholder for reinvestment in Units.

Default Plan:

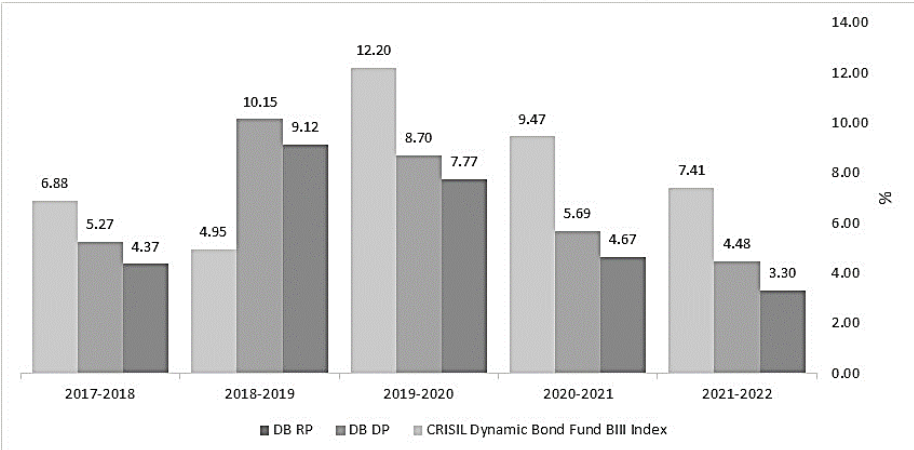

The following matrix shall apply for default plan:

Direct Plan shall be the default plan if the investor doesn't indicate any plan and distributor code in the application form or incase of any ambiguity.

In cases of wrong/ invalid/ incomplete ARN codes mentioned on the application form, the

	<p>application shall be processed under Regular Plan. The AMC shall endeavor to obtain the correct ARN code, within 30 calendar days of the receipt of the application form, from the investor/distributor. In case, the correct code is not received within 30 calendar days (remediation period), the AMC shall re-process the transaction under Direct Plan from the date of application without any exit load, subject to following exceptions/ conditions:</p> <ol style="list-style-type: none"> Such re-processing shall not be carried out in case of already redeemed units. i.e. re-processing shall only be carried out for balance units as maybe available after 30 calendar days. Any subsequent switch-out or STP (transfer out) request for units allotted under wrong/ invalid/ incomplete ARN codes shall not be processed unless: <ol style="list-style-type: none"> Such switch or STP request is for 'switching-in' to direct plan of target scheme / same scheme, as maybe applicable or Correct ARN code is provided and verified by AMC/Mutual Fund, to its satisfaction, prior to processing of such switch request or registration of STP request. In case of SIP transaction, the above time period for remediation shall be applicable from first installment/registration only. In case correct ARN code is not provided within 30 calendar days of such first installment, re-processing shall be carried out and subsequent SIP triggers shall happen in Direct Plan. Notwithstanding any of the clauses as above, re-processing shall not be carried out, for units allotted under wrong/ invalid/ incomplete ARN codes under IDCW option, in case any amount for distribution has been declared during the aforesaid remediation period of 30 calendar days. Subject to above, once the units are re-processed under Direct Plan, no submission of correct ARN code shall be accepted by AMC for such re-processed units. Investors are requested to note that pursuant to such re-processing, the number of units to the credit of such investors may change and AMC / Mutual Fund/ Trustees /Sponsors shall not be liable for any loss that may occur to investors/distributors or any scheme of Mutual Fund consequent to such re-processing. Investors are strongly advised to provide the correct ARN codes in case they wish to subscribe to units of the Scheme under Regular Plan. <p>Default Option/Facility: In case no option is indicated in the application form, then Growth option shall be considered as default option. Further, under dividend option, the quarterly IDCW option shall be the default IDCW option. Investors may also opt to simultaneously invest in any / all option(s) of the Scheme subject to minimum subscription requirements under such option(s)/ Scheme.</p>

specified cities under Regulation 52 (6A) (b)

^Expenses charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.

Further, the Direct Plan shall have a lower expense ratio excluding distribution expenses, commission etc. since no commission shall be paid from this plan. Further, all fees and expenses charged in the Direct Plan (in percentage terms) under various heads including the Investment Management and Advisory Fee shall not exceed the fees and expenses charged under such heads in the Regular Plan.

Estimated annual recurring expenses [% per annum of daily net assets]

As per Regulation 52(6)(c) of SEBI Regulations, the total expenses of the scheme, including Investment Management and Advisory Fees, shall be subject to following limits as specified below:

- On the first Rs. 500 crore of the daily net assets: 2.00%;
- On the next Rs.250 crores of the daily net assets: 1.75%;
- On the next Rs.1,250 crores of the daily net assets: 1.50%;
- On the next Rs. 3,000 crore of the daily net assets: 1.35%;
- On the next Rs. 5,000 crore of the daily net assets: 1.25%;
- On the next Rs. 40,000 crore of the daily net assets: Total expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof;
- On the balance of the assets: 0.80%

Further, the following costs or expenses shall be charged to the Scheme (in addition to the limits specified as per Regulation 52(6)(c) of SEBI Regulations):

- *expenses not exceeding 0.30 per cent of daily net assets, based on inflows only from retail investors#, if the new inflows from beyond top 30 cities are at least –
- 30 per cent of gross new inflows in the Scheme, or;
- 15 per cent of the average assets under management (year to date) of the Scheme, whichever is higher:

As per SEBI circular SEBI/HO/IMD/DF2/CIR/P/2019/42 dated March 25, 2019, inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from 'retail investor'.

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

The top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography - Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

The said additional expenses on account of inflows from beyond top 30 cities so charged shall be clawed back in the scheme, in case the said inflow is redeemed within a period of 1 year from the date of investment.

- Additional expenses under Regulation 52 (6A) (c), not exceeding 0.05% of daily net assets of the scheme**.

** In accordance with SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2018/15 dated February 02, 2018, AMC shall not charge any additional expense of upto 0.05% as per Regulation 52(6A) (c), if exit load is not being levied under the Scheme.

- The AMC may charge GST on investment and advisory service fees ('AMC Fees') which shall be borne by the Scheme in addition to the total expense ratio mentioned in table above;

- @Brokerage and transaction costs includes service tax incurred for the purpose of execution of trade and is included in the cost of investment that shall not exceed 0.12 per cent (12 bps) in case of cash market transactions and 0.05 per cent (5 bps) in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 12bps and 5bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of TER as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

The total expenses charged to the Scheme shall be the maximum limit of TER as prescribed under

	<p>Regulation 52.</p> <p>Investors should note that the total recurring expenses of the Scheme excluding issue or redemption expenses, whether initially borne by the Mutual Fund or by the AMC, but including the investment management and advisory fee, shall not exceed the limits as prescribed under Regulation 52 of the SEBI (MF) Regulations. The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.</p> <p>For the actual current expenses being charged, the investor should refer to the website of the mutual fund at the following link https://www.barodabnp-paribasmf.in/downloads/total-expense-ratio-of-mutual-fund-schemes. Any change proposed to the current expense ratio will be updated on the website and communicated to the investors via e-mail or SMS at least three working days prior to the effective date of the change (in accordance with SEBI circular SEBI/HO/IMD/DF2/CIR/P/2018/18 dated February 05, 2018, SEBI Circular SEBI/ HO/IMD/DF2/CIR/P/ 2018/91 dated June 05, 2018 read with SEBI Circular SEBI/HO/IMD/DF2/CIR/P/2019/42 dated March 25, 2019). Further, the disclosure of the expense ratio on a daily basis shall also be made on the website of AMFI viz. www.amfiindia.com.</p> <p>These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Direct Plan	<p>Direct Plan is available under all the existing open-ended schemes of the Fund for investors who purchase /subscribe units in a scheme directly with the Fund and is not available for investors who route their investments through a Distributor. Following provisions shall be applicable for investments in Direct Plan:</p> <ol style="list-style-type: none"> 1. Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of units will be paid / charged under Direct Plan. 2. Investors wishing to transfer their accumulated unit balance held under regular plan (through lumpsum / systematic investments made with or without Distributor code) to Direct Plan will have to initiate a switch request which shall be processed in the normal course as per timelines applicable for switch transactions. 3. Investments under Direct Plan can be made through various modes offered by the Fund for investing directly with the Fund {except Stock Exchange Platform(s) and all other Platform(s) where investors' applications for subscription of units are routed through Distributors}. 4. Investors, who have invested without Distributor code and have opted for IDCW reinvestment facility under regular plan prior to the January 01, 2013('Effective Date'), may note that the amount will continue to be reinvested in the existing plan with the applicable terms and conditions. 5. In case of Systematic Investment Plan (SIP) / Systematic Transfer Plan (STP), etc. registered prior to the Effective Date without any distributor code under the regular plan, installments falling on or after the Effective Date will be automatically processed under the Direct Plan with the applicable terms and conditions. 6. In case of the following facilities which were registered under the regular plan prior to the Effective Date the future installments shall continue under the regular plan: (i) Systematic Transfer Facilities (registered with Distributor Code) (ii) IDCW Sweep Facility (registered from a folio where investments were made both with and without Distributor code) In case such investors wish to invest under the Direct Plan through these facilities, they would have to cancel their existing enrolments and register afresh for such facilities. 7. Investors who have registered for SIP facility prior to the Effective Date with distributor code and wish to invest their future installments into the Direct Plan shall make a written request to the Fund for the same. The Fund will take at least 15 working days to process such requests. Intervening installment, if any, will continue in the regular plan. 8. Where units under a scheme are held under both distributor and Direct Plan and the redemption / switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along with the folio number), failing which the request would be processed from the regular plan. However, where units under the requested option are held only under one plan, the request would be processed under such plan. 9. Switch / redemption / repurchase may entail tax consequences. Investors should consult their professional tax advisor before initiating such requests. <p>Further, exit load shall be applicable for switches between the two schemes. The exit load shall not be charged for inter option switch within the same plan.</p>
Directions to investors applying directly under all Schemes of the fund	<p>In case of receipt of Application Form having broker code as blank space at the time of processing and allotting the units by the Registrars, AMC will consider such application as "Direct". However, the Investors are requested to fill the blank space with the words such as "Not Applicable" or "Direct" so as to ensure that their application is processed as direct and any misuse is prevented. Alternatively, investors can also strike off the blank space in the broker code field to prevent any misuse.</p>
Compliance with Foreign Accounts Tax Compliance Act ("FATCA") and Common Reporting Standards (CRS) requirements	<p>FATCA and CRS requirements may require disclosure regarding your investment in the units of the Scheme.</p> <p>Investors are informed that the AMC / the Fund are required to adhere to various requirements interalia including submission of various information / details relating to the investors in the schemes of the mutual fund, to authorities/third parties including the U.S Internal Revenue Service ('IRS') or the Indian tax authorities, for the purpose of onward transmission to the U.S. Internal Revenue Service or such other authority as specified under the applicable laws from time to time. The information disclosed may include (but is not limited to) the identity of investors and their direct or indirect beneficiaries, beneficial owners and controlling persons, their residential status / details. Accordingly, Investors are requested to provide all the necessary information / declarations and to comply with any reasonable request from the AMC/ the Fund to allow the AMC/ the Fund to comply with such information reporting requirements.</p> <p>For more details, investors are requested to refer to SID.</p>

Quarterly Systematic Investment Facility (QSIF): Minimum INR 1500 and in multiples of INR 1 thereafter per installment for a minimum of 4 Installments
For Baroda BNP Paribas ELSS Fund: Minimum INR 500 and in multiples of INR 500 thereafter per installment. Minimum Installments for DSIP, WSIF, MSIF will be 6 installments and for QSIF 4 installments
Accordingly, the provision of criteria of Minimum Application Amount of the scheme shall not apply to such applications using the SIP facility.
- Applicable Load Structure for SIP**
Entry Load: Nil
The provisions of Exit Load as applicable to the normal investments as on the date of Registration will be applicable to fresh SIP investments.
- Separate SIP Registration Forms are required to be filled for DSIP, WSIF, MSIF and QSIF.
- Investors have the right to discontinue the SIP facility at any time by sending a written request to any of the Official Points of Acceptance of Transactions. Such notice should be received at least 14 days prior to the due date of the next cheque. On receipt of such request, the SIP facility will be terminated.
- The registration period of SIP will be as per the instruction given by the investor. In case the SIP is selected for a Perpetual period investors will have to submit SIP cancellation request to discontinue the SIP. In case of any ambiguity in registration period or if the end date of SIP is not mentioned, the default period for SIP will be perpetual.
- In case investor has not selected any frequency or in case of any ambiguity, monthly frequency shall be considered as default option. Similarly, 7th day shall be considered as default Trigger date. In case of any ambiguity in the enrolment form, the SIP registration request shall be liable to be rejected.
- In case of minor application, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Prior to minor attaining majority, AMC shall send advance notice to the registered correspondence address advising the guardian and the minor to submit an application form along with prescribed documents to change the status of the account to "major". The account shall be frozen for operation by the guardian on the day the minor attains the age of majority and no fresh transactions shall be permitted till the documents for changing the status are received.
- The Trustee / AMC reserves the right to change / modify the terms of the SIP.
- If no start date is mentioned by the investors, the SIP will be registered to start from a period after 30 days from the date of submission of the application form.
- DSIP shall be triggered and processed on all Business Days only.
- Investors can choose any preferred date of the month as SIP debit date. In case the chosen date falls on a non-business day, the SIP will be processed on the immediate next business day. In case chosen date is not available in a particular month, the SIP will be processed on the last business day of the month.
- The SIP will be discontinued automatically if payment is not received for three successive instalments
- The amount mentioned on the first cheque should be equal to the combined SIP instalment amount mentioned against all the Schemes in the Form. Accordingly, the first cheque amount will get invested in multiple Schemes as mentioned in the form. In case of mismatch, the transaction is liable to be rejected. Further, investor should ensure that the amount mentioned on the OTM is equal to the total consolidated amount across all schemes mentioned as per the form
- If a Micro SIP application is found such that the registration of the application will result in the aggregate of all investments made by the investor in a financial year exceeding Rs. 50,000 or where there is any deficiency in the application form or any supporting document In case the first Micro SIP instalment is processed (as the cheque may be banked), and the application / supporting document is found to be defective, such Micro SIP will be ceased for future instalments. No refunds shall be made for the units already allotted. Investor, can however, redeem the units if so desired.
- The investor will not hold Baroda BNP Paribas Mutual Fund, its registrars and other service providers responsible if the transaction is delayed or not effected or the investor bank account is debited in advance or after the specific SIP date due to various clearing cycles of NACH Debit/ Local/Bank holiday. Baroda BNP Paribas Mutual Fund, its registrars and other service providers shall not be held responsible or liable for damages / compensation / loss incurred by the investor as a result of using the SIP NACH / Direct Debit facility. The investor assumes the entire risk of using this facility and takes full responsibility.
