	 d) The Scheme will emphasize on well managed, with above average growth prospects whose securities can be purchased at a good yield and whose debt securities will be mainly in securities listed as investments grade by a recognised authority like CRISIL, ICRA, CARE etc. e) Investment in sovereign papers would be based on the interest rate expectations arising out of macroeconomic analysis. This includes analysis of inflation data, & trends in macro variables such as credit growth, liquidity, money supply, fiscal numbers & global interest.
Risk Profile of the	Mutual Fund units involve investment risks including the possible loss of principal. Please read the
scheme	SID carefully for details on risk factors before investment.
Scheme	Standard Risk Factors
	 Investments in mutual fund units involves investment risks such as market risk, credit & default risk, liquidity risk, trading volumes, settlement risk, including the possible loss of principal. As the price/ value/ interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in the stock markets, bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the companies and issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.
	3. Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee future performance of
	the scheme.
	4. Baroda BNP Paribas Gilt Fund is the name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
	5. The sponsors / associates are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 10,00,000/- (Rupees ten lakh only) to the
	corpus of the Mutual Fund made by it towards setting up the Fund. 6. The present scheme is not a guaranteed or assured return scheme.
	<u>Scheme Specific Risk factors are summarized as follows:</u> - Market Risk:
	All mutual funds and securities investments are subject to market risk and there can be no assurance / guarantee that the scheme's objectives will be achieved. The securities that the scheme invests in would be exposed to price changes on a day-to-day basis. These price changes may occur due to instrument-specific factors as well as general macroeconomic conditions. Markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments. The scheme may be subject to price volatility due to factors such as interest sensitivity, market perception, and creditworthiness of issuer and market liquidity. Different parts of the market can react differently to these developments. The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.
	- Concentration Risk The scheme may pursue only a limited degree of diversification. It may invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.
	Scheme Specific Risk factors: Risks associated with investing in fixed income securities:
	1. Credit and Counterparty risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations). Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts. The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit and counterparty risk as well as any actual event of default. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security value.

- 2. Liquidity Risk: The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests. A lower level of liquidity affecting an individual security or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the Fund's ability to sell particular securities quickly enough to minimise impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic/corporate event. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all of the investments and may affect the liquidity of the investments of the scheme. The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.
- 3. Interest Rate Risk & Re-investment Risk: The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the Scheme generally will vary inversely with the changes in prevailing interest rates. In general, price of debt and fixed income securities go up when interest rates fall, and vice versa. Securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security. The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- 4. Sovereign risk: The Central Government of India is the issuer of the local currency debt in India. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying least probability of a default, such securities are known as securities with sovereign credit. It also implies that the credit risk on such Government securities is even lower than that on non-government securities with "AAA" rating and hence yields on government securities are even lower than yields on non-government securities with "AAA" rating.

Risk Factors associated with Investments in Derivatives

The Scheme(s) may use various derivative instruments and techniques, permitted within SEBI (Mutual Funds) Regulations, 1996 from time to time including but not limited for portfolio balancing and hedging purpose, which may increase the volatility of Scheme's performance. Usage of derivatives will expose the Scheme(s) to certain risks inherent to such derivatives.

Derivative products are specialized instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. There is a possibility that a loss may be sustained by the Scheme(s) as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, interest rates and indices. Even a small price movement in the underlying instrument could have a large impact on their value. This could increase the volatility of the Scheme's performance.

In case of hedge, it is possible that derivative positions may not be perfectly in line with the underlying assets they are hedging. As a consequence the derivative cannot be expected to perfectly hedge the risk of the underlying assets. This also increases the volatility of the Scheme's performance. Some of the risks inherent to derivatives investments include:

1. **Price Risk**: Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.

2. **Default Risk:** This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.

3. **Basis Risk:** This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset.

4. Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

5. Liquidity risk: This risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

<u>Risk factors associated with investments in repo transactions in corporate debt:</u>

The Scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount. The risk is further mitigated through over-collateralization (the value of the collateral being more than the repo amount).

<u>Risk factors associated with investments in Credit Default Swaps:</u>

Credit default swap is the most common form of credit derivative where the buyer of the swap makes payments to the swap's seller until the maturity date of a contract. In return, the seller agrees that – in the event that the debt issuer defaults or experiences another credit event – the seller will pay the buyer the security's value as well as all interest payments that would have been paid between that time and the security's maturity date. The Scheme may participate in credit Default Swaps (CDS) as a buyer (protection buyer) to hedge/offset credit risk related to fixed income instruments. It is important to note that the credit risk isn't completely eliminated – it has been shifted to the CDS seller. The risk is that the CDS seller defaults at the same time the credit event occurs. In case the debt issuer does not default or no credit event occurs till maturity of CDS contract, the buyer will end up losing money through the payments on the CDS.

<u>Risk Factors associated with investments in debt instruments having Structured Obligations /</u> <u>Credit Enhancements:</u>

The risks factors stated for debt instruments having Structured Obligations / Credit Enhancements are in addition to the risk factors associated with fixed income instruments:

• Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer

• SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.

• The credit risk of debt instruments which are CE rated derives rating is based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise

Hence portfolios with higher duration will have higher interest rate risk. The duration of the Scheme will be actively managed based on prevailing macroeconomics condition, political environment, liquidity position in system, inflationary expectorations and other economic considerations.
	Credit Risk	The credit evaluation of the AMC entails evaluation of credit fundamentals of each investment opportunity. Some of the factors that are evaluated inter-alia may include outlook on the sector, parentage, quality of management, and overall financial strength of the credit. The AMC will utilize ratings of recognized rating agencies as an input in the decision-making process. To reduce credit risk, the scheme shall Invest in debt and money market instruments that have been assigned high investment grade ratings by a recognized rating agency.
	Liquidity Risk	Liquidity risk is the risk of not being able to sell / liquidate a security at short notice at prevailing market prices or without incurring impact cost. Liquidity Risk can be partly mitigated by creating portfolios that are diversified across maturities, ratings, types of securities, etc. in line with the fund objectives, regulations and investment strategy. The Scheme shall follow the asset allocation pattern in Scheme Information Document under normal circumstances and residual cash may be invested in the Tri-party repo on Government Securities and treasury bills, repo market, units of mutual fund which seeks to ensure liquidity in the scheme under normal circumstances.

The AMC will also annually set apart, for investor education and awareness initiatives, at least 0.02% on the daily net assets of each Scheme, which shall be within the maximum limit of TER as mentioned in the table above Further, the following costs or expenses shall be charged to the Scheme (in addition to the limits specified as per Regulation 52(6)(c) of SEBI Regulations): a)Brokerage and transaction costs which are incurred for the purpose of execution of trades may be capitalised to the extent of 12 bps in case of cash market transactions and 5 bps in case of derivatives transactions. Any payment towards brokerage and transaction cost, over and above the aforesaid limits may be charged to the Scheme within the maximum limit of TER mandated by Regulation 52(6) of the SEBI Regulations; b)expenses not exceeding of 0.30% of daily net assets, if the new inflows from such cities as specified by SEBI from time to time are at least (i) 30% of gross new inflows in the scheme, or (ii) 15% of the average assets under management (year to date) of the scheme, whichever is higher. Provided that if inflows from such cities are less than the higher of (i) or (ii) above, such expenses on the daily net assets of the Scheme shall be charged on a proportionate basis. Provided further that the expenses charged under this provision shall be utilised for distribution expenses incurred for bringing inflows from such cities. Provided further that the amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment. Additional TER will be charged based on inflows only from retail investors (other than corporates and institutions) from B-30 cities. As per SEBI circular dated March 25, 2019, inflows of amount upto Rs. 2,00,000/- per transaction, by individual investors from B-30 cities, shall be considered as inflows from retail investors. c)additional expenses, incurred towards different heads, not exceeding 0.05% of the daily net assets of the Scheme. However, such expenses will not be charged if exit load is not levied / not applicable to the Scheme. Investors may note that GST on investment and advisory fees may be charged to the Scheme in addition to the maximum limit of TER as mentioned in the table above. GST on expenses other than investment and advisory fees, if any, shall be borne by the Scheme within the maximum limit of TER as mentioned in the table above. GST on brokerage and transaction costs paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52 of the SEBI Regulations. For the actual current expenses being charged, the investor should refer to the website of the mutual fund at the following link <https://www.barodabnpparibasmf.in/downloads/total-expense-ratio-ofmutual-fund-schemes>. Any change proposed to the current expense ratio will be updated on the website and communicated to the investors via e-mail or SMS at least three working days prior to the effective date of the change (in accordance with SEBI circular SEBI/HO/IMD/DF2/CIR/P/2018/18 dated February 05, 2018, SEBI Circular SEBI/ HO/IMD/DF2/CIR/P/2018/91 dated June 05, 2018 read with SEBI Circular SEBI/HO/IMD/DF2/CIR/P/ 2019/42 dated March 25, 2019). Further, the disclosure of the expense ratio on a daily basis shall also be made on the website of AMFI viz. www.amfiindia.com. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC or by the Trustee or Sponsor. - INSTRUCTIONS
- The SIP Registration Form should be completed in English and in Block Letters only. Please tick
 (✓) in the appropriate box (□), where boxes have been provided. The SIP Enrolment Form,
 complete in all respects, should be submitted to any of the Official Points of Acceptance of
 Transactions.
- Unit Holders can register SIP in up to 4 different schemes using single Multi SIP Registration Form.
- Existing unit holders are required to submit only the SIP Registration Form. Existing unit holders should note that unit holders' details and mode of holding (single, jointly, anyone or survivor) will be as per the existing folio number.
- 4. New investors who wish to register for SIP are required to fill the Common Application Form and SIP Application Form. New investors are advised to read the Key Information Memorandum(s) and Scheme Information Document carefully before investing and the same are available with the ISCs / distributors.
- Minimum amount and installments required for various SIP frequencies offered to investors is as below:

For all open ended non-liquid schemes, other than Baroda BNP Paribas ELSS Fund:

Daily Systematic Investment Facility (DSIF), Weekly Systematic Investment Facility (WSIF) and Monthly Systematic Investment Facility (MSIF): Minimum INR 500 and in multiples of INR 1 thereafter per installment for a minimum of 12 Installments

Quarterly Systematic Investment Facility (QSIF): Minimum INR 1500 and in multiples of INR 1 thereafter per installment for a minimum of 4 Installments

For Baroda BNP Paribas ELSS Fund: Minimum INR 500 and in multiples of INR 500 thereafter per installment. Minimum Installments for DSIP, WSIF, MSIF will be 6 installments and for QSIF 4 installments

Accordingly, the provision of critieria of Minimum Application Amount of the scheme shall not apply to such applications using the SIP facility.

6. Applicable Load Structure for SIP

Entry Load: Nil

The provisions of Exit Load as applicable to the normal investments as on the date of Registration will be applicable to fresh SIP investments.

- 7. Separate SIP Registration Forms are required to be filled for DSIP, WSIF, MSIF and QSIF.
- 8. Investors have the right to discontinue the SIP facility at any time by sending a written request to any of the Official Points of Acceptance of Transactions. Such notice should be received at least 14 days prior to the due date of the next cheque. On receipt of such request, the SIP facility will be terminated.
- 9. The registration period of SIP will be as per the instruction given by the investor. In case the SIP is selected for a Perpetual period investors will have to submit SIP cancellation request to discontinue the SIP. In case of any ambiguity in registration period or if the end date of SIP is not mentioned, the default period for SIP will be perpetual.
- 10. In case investor has not selected any frequency or incase of any ambiguity, monthly frequency shall be considered as default option. Similarly, 7th day shall be considered as default Trigger date. In case of any ambiguity in the enrolment form, the SIP registration request shall be liable to be rejected.
- 11. In case of minor application, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Prior to minor attaining majority, AMC shall send advance notice to the registered correspondence address advising the guardian and the minor to submit an application form along with prescribed documents to change the status of the account to "major". The account shall be frozen for operation by the guardian on the day the minor attains the age of majority and no fresh transactions shall be permitted till the documents for changing the status are received.
- 12. The Trustee / AMC reserves the right to change / modify the terms of the SIP.
- If no start date is mentioned by the investors, the SIP will be registered to start from a period after 30 days from the date of submission of the application form.
- 14. DSIP shall be triggered and processed on all Business Days only.
- 15. Investors can choose any preferred date of the month as SIP debit date. In case the chosen date falls on a non-business day, the SIP will be processed on the immediate next business day. In case chosen date is not available in a particular month, the SIP will be processed on the last

business day of the month

- The SIP will be discontinued automatically if payment is not received for three successive instalments
- 17. The amount mentioned on the first cheque should be equal to the combined SIP instalment amount mentioned against all the Schemes in the Form. Accordingly, the first cheque amount will get invested in multiple Schemes as mentioned in the form. In case of mismatch, the transaction is liable to be rejected. Further, investor should ensure that the amount mentioned on the OTM is equal to the total consolidated amount across all schemes mentioned as per the form
- 18. If a Micro SIP application is found such that the registration of the application will result in the aggregate of all investments made by the investor in a financial year exceeding Rs. 50,000 or where there is any deficiency in the application form or any supporting document In case the first Micro SIP instalment is processed (as the cheque may be banked), and the application / supporting document is found to be defective, such Micro SIP will be ceased for future instalments. No refunds shall be made for the units already allotted. Investor, can however, redeem the units if so desired.
- 19. The investor will not hold Baroda BNP Paribas Mutual Fund, its registrars and other service providers responsible if the transaction is delayed or not effected or the investor bank account is debited in advance or after the specific SIP date due to various clearing cycles of NACH Debit/ Local/Bank holiday. Baroda BNP Paribas Mutual Fund, its registrars and other service providers shall not be held responsible or liable for damages / compensation / loss incurred by the investor as a result of using the SIP NACH / Direct Debit facility. The investor assumes the entire risk of using this facility and takes full responsibility.

The terms and conditions for availing the 'Top-Up SIP' shall be as follows:

Frequency for Top-Up SIP

(i) For Monthly SIP:

- a. Half Yearly Top-Up SIP: Under this option, the amount of investment through SIP installment shall be increased by amount chosen / designated by Investor post every 6th (sixth) SIP installment.
- Yearly Top-Up SIP: Under this option, the amount of investment through SIP installment shall be increased by amount chosen / designated by Investor post every 12th (twelfth) SIP installment.

(ii) For Quarterly SIP:

a. Yearly Top-Up SIP: Under this option, the amount of investment through SIP installment shall be increased by amount chosen / designated by Investor post every 4th (fourth) SIP installment. In case the investor who has registered under Quarterly SIP opts for Half Yearly Top-Up SIP, the same shall be registered and processed as Yearly Top-Up SIP.

2. Minimum Top-Up SIP Amount:

₹ 500 and in multiples of ₹ 500 thereafter.

Default Top-Up SIP Frequency and amount:

- In case the investor fails to specify either the frequency or amount for Top-Up SIP, the same shall be deemed as Yearly Top-Up SIP and ₹ 500 respectively and the application form shall be processed accordingly. In case the investor fails to specify both, i.e. the frequency for Top-Up SIP and amount for Top-Up SIP, the application form may be processed as conventional SIP, subject to it being complete in all other aspects.
- 4. Top-Up SIP shall be available for SIP Investments only through NACH / Direct Debit Facility only. Top-Up SIP shall not be available under SIP facility availed by Investors through Standing Instructions or investing through Channel Partners or through Stock Exchange Platforms.
- 5. Top-Up SIP facility shall not be available under Weekly SIP option.
- Top-Up SIP facility can be availed by the investors only at the time of registration of SIP or renewal of SIP.
- Investors should note that for modification of any of the details of Top-Up SIP details, the existing SIP with Top-Up facility shall be required to be cancelled and investor would be required to register a fresh SIP with modified Top-Up facility details.
- Investors should ensure the amount mentioned in the OTM is on the higher side to be able to accomodate the increase as and when the top up amount is triggered. In case the OTM amount is lesser than the base amount + top up amount for any trigger in future, the SIP with Top-Up Facility will stand cancelled.

 Active Non Financial Entity (NFE) (any one of the following): Refer explanation (A) to 114F(6) of Income tax Rules, 1962 for details:

Code Sub-category

- 01 Less than 50 percent of the NFE's gross income for the preceding financial year is passive income and less than 50 percent of the assets held by the NFE during the preceding financial year are assets that produce or are held for the production of passive income;
- 02 The stock of the entity is regularly traded on an established securities market or the non-financial entity is a related entity of an entity. The stock of which is regularly traded on an established securities market.
- 03 The NFE is a Governmental Entity, an International Organization, a Central Bank, or an entity wholly owned by one or more of the foregoing;
- 04 Substantially all of the activities of the NFE consist of holding (in whole or in part) the outstanding stock of, or providing financing and services to, one or more subsidiaries that engage in trades or businesses other than the business of a Financial Institution, except that an entity shall not qualify for this status if the entity functions as an investment fund, such as a private equity fund, venture capital fund, leveraged buyout fund, or any investment vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes;
- 05 The NFE is not yet operating a business and has no prior operating history, but is investing capital into assets with the intent to operate a business other than that of a Financial Institution, provided that the NFE shall not qualify for this exception after the date that is 24 months after the date of the initial organization of the NFE;
- 06 The NFE was not a Financial Institution in the past five years, and is in the process of liquidating its assets or is reorganizing with the intent to continue or recommence operations in a business other than that of a Financial Institution;
- 07 The NFE primarily engages in financing and hedging transactions with, or for, Related Entities that are not Financial Institutions, and does not provide financing or hedging services to any Entity that is not a Related Entity, provided that the group of any such Related Entities is primarily engaged in a business other than that of a Financial Institution;
- 08 Any NFE that fulfills all of the following requirements:
 - It is established and operated in India exclusively for religious, charitable, scientific, artistic, cultural, athletic, or educational purposes; or it is established and operated in India and it is a professional organization, business league, chamber of commerce, labor organization, agricultural or horticultural organization, civic league or an organization operated exclusively for the promotion of social welfare:
 - It is exempt from income tax in India;
 - It has no shareholders or members who have a proprietary or beneficial interest in its income or assets;

The applicable laws of the NFE's country or territory of residence or the NFE's formation documents do not permit any income or assets of the NFE to be distributed to, or applied for the benefit of, a private person or non-charitable Entity other than pursuant to the conduct of the NFE's charitable activities, or as payment of reasonable compensation for services rendered, or as payment representing the fair market value of property which the NFE has purchased; and

The applicable laws of the NFE's country or territory of residence or the NFE's formation documents require that, upon the NFE's liquidation or dissolution, all of its assets be distributed to a governmental entity or other non-profit organization, or escheat to the government of the NFE's country or territory of residence or any political subdivision thereof.
