\*Monthly AAUM and AUM - Excluding inter-scheme investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable.

## ABOUT THE FUND

- Baroda BNP Paribas Multi Cap Fund invests across the breadth of the equity market by having a diversified portfolio investing across market capitalisations viz. large, mid and small.
- The Scheme aims to follow a blended investment approach of growth and value. In terms of "growth", the Scheme aims to invest in companies with 'superior and 'sustainable' earning growth potential. To unleash "value", the Scheme aims to invest in companies with strong operating cash flow visibility and sound balance sheet available at reasonable valuations.
- It also aims to capture the twin advantage of relatively low volatility of large caps along with growth potential of mid and small caps. As a result of such market cap flexibility and blended investment style, the fund manager aims to manage portfolio risk efficiently and aims to create an all-weather portfolio. For example, in a bearish scenario such a strategy may limit the downside and upside by realigning the market cap to a large cap biased one. Conversely, in an economic upswing the exposure to mid and small caps can be increased to take advantage of their re-rating, albeit with relatively higher risk to the portfolio.
- The Scheme is suitable for investors who have a long term investment horizon.

## PORTFOLIO POSITIONING

- We increased our weight towards consumer discretionary and staples as valuations are supportive now
- Key overweight positions are Industrials, Information technology, Healthcare, and consumer staple., while key underweight positions are Materials, Energy and Financials.
- Mid and small cap exposure stands at 56.6%, remained stable compared to the last month. Large Cap exposure stands at 39.6%, stable compare to last month.
- Cash position stands at 3.8% (Vs 5% last month).
- We continue to remain overweight towards Industrial sector as we are positive on overall capex spending by government as well as private players.
- We are overweight on Staples due to expected recovery in rural economy.
- We remain overweight on IT as discretionary spends expected to increase with tailwinds in margin.

## MARKET CAPITALIZATION (% of Net Assets)

## CURRENT MARKET CAP (% of Net Assets)

## TOP 5 SECTORS

Top 5 Sectors (% to net assets) have been considered as of the latest month end

### Income Distribution cum Capital Withdrawal (IDCW) HISTORY (Regular Plan - IDCW Option)

Record Date	Distribution Rate Per Unit (₹) Individual/ others	Cum--IDWC NAV (₹)
27-Aug-2024	0.45	60.86
27-Sep-2024	0.47	62.40
29-Oct-2024	0.45	58.76

Pursuant to distribution under Income Distribution cum Capital Withdrawal ('IDCW') option, NAV of the IDCW option of the scheme(s) would fall to the extent of pay-out and statutory levy (if applicable). The amounts under IDCW options can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains. **Past performance may or may not be sustained in future. and is not a guarantee of any future returns** The above stated distribution rate per unit is net distribution rate after deducting applicable taxes. The above distribution rates are on face value of ₹ 10 per unit. Face value may change depending upon FV of the scheme.

### DISCLAIMERS

**# Key Statistical Ratios** - The information contained in this report has been obtained from sources considered to be authentic and reliable. This quantitative data does not purport to be an offer for purchase and sale of mutual fund units. The Standard Deviation is used to measure the volatility of returns. Sharpe Ratio is the measure of the risk - adjusted performance. Beta is the measure of the portfolio's volatility to its respective benchmark. The risk free rate of return considered for calculation of Sharpe ratio is 6.75%, as per 1 day MIBOR rate on the last business day of the month. Sharpe ratio, Volatility/Standard deviation is annualised based on 36 monthly data points. Beta is based on last 36 monthly data points. Information ratio aims to show consistency in generating excess returns relative to benchmark, which is measured by the tracking error. Tracking error is the measure of the deviation from the benchmark.

**Market Capitalization as per SEBI** - Large Cap: 1st - 100th company, Mid Cap: 101st - 250th company and Small Cap: 251st company onwards in terms of full market capitalization

**Portfolio Positioning, Top 5 Sectors/Stocks** - details contained herein is for general information purposes only and does not indicate assurance of future Scheme performance. The sector(s)/stock(s) mentioned in this document do not constitute any recommendation of the same and Baroda BNP Paribas Mutual Fund may or may not have any future position in these sector(s)/stock(s). Further, the portfolio of the Scheme is subject to changes within the provisions and limitations of Scheme Information Document (SID). For further details on asset allocation, investment strategy and risk factors of the Scheme please refer to SID available on our website ([www.barodabnp-paribasmf.in](http://www.barodabnp-paribasmf.in)).

**NAV Movement (Rs. 10,000 Invested at Inception)** - All returns are for Regular Plan - Growth Option. **Past performance may or may not be sustained in future and is not a guarantee of any future returns.** Returns do not take into account the load, if any.

**SIP Performance** - Returns do not take into account the load and taxes, if any. The data assumes investments in Regular Plan - Growth option. % CAGR Returns are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return). The above investment simulation is for illustrative purpose only and should not be construed as a promise on minimum returns and safeguard of capital. The AMC/ Mutual fund is not guaranteeing or forecasting or promising any return. SIP does not assure a profit or guarantee protection against loss in a declining market.

**IDCW History** - Past performance may or may not be sustained in future and is not a guarantee of any future returns. Pursuant to payment of IDCW, the NAV of the Scheme has fallen to the extent of IDCW distribution and statutory levy (if any). Declaration of IDCW is subject to the availability of distributable surplus under the Option and there is no assurance or guarantee to Unit holders as to the rate of IDCW distribution nor will that dividend be paid regularly. The above IDCW are on face value of ₹ 10 per unit.
