	<p><b>Change in investment pattern and rebalancing of portfolio</b></p> <p>Subject to the Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute, and that they can vary substantially, depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders.</p> <p>Such changes in the investment pattern will be for a short term and for defensive considerations only. In the event of such a deviation, the fund manager will rebalance the portfolio within 30 days from the date of deviation. If, however, the portfolio is not rebalanced within the said 30 days, justification for not rebalancing will be placed before the Investment Committee of the AMC and effective steps would be taken as may be decided by the Investment Committee. At all points of time, the portfolio will be in line with the investment objective of the Scheme.</p> <p>Investors may please note that any change in the asset allocation pattern, other than that envisaged above, and hence affecting the investment profile of the Scheme, shall be construed as a change in fundamental attribute, and shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations.</p> <p>7. Subject to the SEBI (MF) Regulations and in accordance with the framework for short selling and borrowing and lending of securities notified by SEBI vide circular No MRD/DoP/SE/Dep/Cir-14/2007 dated December 20, 2007, as may be amended from time to time, the Scheme intends to engage in stock lending. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation in order to enhance returns of the portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The Scheme may engage in short selling in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI. The Scheme shall adhere to the following limits should it engage in stock lending:</p> <ol style="list-style-type: none"> <li>Not more than 20% of the net assets of the Scheme can generally be deployed in stock lending.</li> <li>Not more than 5% of the net assets of the Scheme can generally be deployed in stock lending to any single counter party.</li> </ol> <p>The Scheme may not be able to sell such lent out securities and this can lead to temporary illiquidity. <b>(Applicable to BESF, BDEF and BLMCF)</b></p> <p>8. The Scheme will invest in debt instruments of investment grade and/or unrated debt securities. "Investment grade" means investment grade by a credit rating agency authorised to carry out such activity under the Regulations. The Scheme retains the flexibility to invest across all securities in the debt and money markets as permitted by SEBI / RBI from time to time. In addition to the instruments stated in the above table, the Scheme may enter into reverse repos in government securities as may be permitted by SEBI and RBI and in Triparty Repo in line with relevant RBI regulations.</p> <p>The Scheme does not intend to undertake/invest/engage in Credit Default Swaps (CDS) transactions. <b>(Applicable to BLCF, BMCF, BESF, BDEF and BLMCF)</b></p>
<p><b>Risk Profile of the Schemes</b></p>	<p>Mutual Fund Units involve investment risks, including the possible loss of principal. Please read the relevant SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p><b>Risks associated with investing in Equity and Equity Related Securities (Applicable to all equity schemes)</b></p> <ul style="list-style-type: none"> <li>Equity instruments carry both company specific and market risks and hence no assurance of returns can be made in respect of these investments.</li> <li>Equity and equity related securities are prone to daily price fluctuations and the liquidity of investments made in the Schemes may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly due to unforeseen circumstances. The inability of the Schemes to make intended securities purchases, due to settlement problems, could cause the Schemes to miss certain investment opportunities. Likewise, the inability to sell securities held in the Scheme's portfolio could result, at times, in potential losses to the Schemes, should there be a subsequent decline in the value of securities held in the Scheme's portfolio. Also, the value of the Schemes' investments may be affected by fluctuations in interest rates, currency exchange rates, changes in laws/policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual securities, a specific sector or all sectors.</li> </ul> <p><b>Risks associated with companies operating in the Banking and Financial Services Sector (Applicable only to Baroda Banking and Financial Services Sector):</b></p> <ul style="list-style-type: none"> <li>As the Scheme will invest in the equity and equity related securities of companies in the Banking &amp; Financial Services sector, it may be affected by the risks associated with such companies, such as interest rate, credit, market and operational risks.</li> <li>The Banking &amp; Financial Services sector is subject to extensive Government regulation, which may change frequently. Performance of this sector depends on availability and cost of money, and may fluctuate in response to change in interest rates and general economic conditions. Also, as businesses in this sector operate on substantial financial leverage, the value of investments in this sector may be impacted more than the value of investments outside the sector.</li> </ul> <p><b>Applicable to Baroda Dynamic Equity Fund and Baroda Equity Savings Fund :</b></p> <ul style="list-style-type: none"> <li>The Scheme attempts to manage risk through active asset allocation. Based on the historical analysis done by the AMC, such a scheme is able to generate a lower risk profile compared to a 100% equity investment strategy. However, there is no certainty that the active asset allocation approach will be able to manage risk as effectively going forward.</li> <li>The quantitative model is based on the analysis of past performance of fundamental factors, which have relevance to equity and fixed income markets. If the relevance of these factors to influence the respective markets diminishes, it will impact asset allocation and consequently, returns of the Scheme will be impacted.</li> <li>Valuation parameters chosen and the weights assigned are based on the historical analysis and may not hold well in the future if there is extreme change in the perception of the market participants.</li> <li>During periods of extreme volatility in short period of time, the model may underperform the benchmark for short term, however this is likely to average out in the longer term.</li> <li>The Scheme would be rebalanced on a monthly basis. Any sharp volatility in short term may impact the desired asset allocation and hence, the Scheme returns.</li> </ul> <p><b>Applicable to Baroda Mid-Cap Fund:</b> Mid-Cap stocks may be more volatile &amp; less liquid than large cap companies. Investors therefore, should assume that illiquidity risks are higher in this Scheme than in a normally diversified equity fund. Thus, relative to larger, more liquid stocks, investing in Mid-Cap stocks involves potentially greater volatility and risk.</p> <p><b>Risks associated with repo transactions in corporate debt (Applicable to Baroda Multi Cap Fund, Baroda ELSS'96 and Baroda Hybrid Equity Fund)</b></p> <p>The Scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount. The risk is further mitigated through over-collateralization (the value of the collateral being more than the repo amount).</p> <p><b>Risks associated with transaction in Units through Stock Exchange mechanism (Applicable for all schemes):</b> Allotment and/or redemption of Units through NSE or BSE or any other recognized stock exchange on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing, settlement, etc., upon which the Schemes have no control. Moreover, transactions conducted through the stock exchange mechanism will be governed by the operating guidelines and directives issued by the relevant recognized stock exchange.</p> <p>IDCW Reinvestment sub-option shall not be available to investors who transact through the stock exchange in dematerialized mode.</p> <p>Please refer Scheme Information Document (SID) for risk associated with investing in REITS and InvTs, securitized debt and Foreign securities.</p> <p>Mutual Fund Units involve investment risks including the possible loss of principal.</p> <p><b>Please read the SID carefully for details on risk factors before investment.</b></p>
<p><b>Risk Mitigation/ Management Strategy</b></p>	<p>Investments in equity and equity related securities carry various risks such as inability to sell securities, trading volumes and settlement periods, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and hedging. Further, the portfolio of a Scheme will be constructed in accordance with the investment restrictions specified under the SEBI (Mutual Funds) Regulations, which would help in mitigating certain risks relating to investments in securities market.</p> <p>Investment in debt securities carries various risks such as inability to sell securities, trading volumes and settlement periods, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification.</p>
<p><b>Plans &amp; Options</b></p>	<p><b>Each Scheme has the following Plans: (For Baroda Dynamic Equity Fund, Baroda Equity Savings Fund and for Baroda Large &amp; Mid-Cap Fund: Regular &amp; Direct Plans)</b></p> <p>(i) Plan A/ Regular Plan is meant for investors who route their investments through distributors only. (ii) Plan B (Direct)/ Direct Plan - Plan B (Direct)/ Direct Plan is meant for direct investments, i.e. for investors who purchase/subscribe to the units of the Scheme directly with the Fund, and is not available for investors who route their investments through a Distributor.</p> <p>Both Plans will have a common portfolio, but Plan B (Direct)/ Direct Plan will have a lower expense ratio on account of absence of brokerage and commission. Hence both plans will have distinct NAVs.</p> <p>The details of Options / Sub-Options (available under each Plan) are as under:</p> <p>(a) Growth Option (Default) (b) IDCW Option - Payout Sub-Option and Reinvestment sub-Option (Default).</p> <p>Reinvestment sub option is not available for Baroda ELSS'96</p> <p>If the Dividend/IDCW under the Payout Option is less than or equal to ₹ 200 (except for BELSS'96), it will, by default, be reinvested under the Reinvestment sub-option. Dividend Reinvestment sub-option shall not be available to investors who transact through the stock exchange in dematerialized mode.</p>

Various fundamental and valuation parameters are considered in terms of revenue, assets and efficiency for identifying sectors and scrips which involves sales growth, Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) margin, Profit After Tax (PAT) margin, Price to Earnings (PE) ratio, Price to Book (PB) ratio, EV/EBITDA, Dividend Discount Model (DDM), economic value added, etc.</li> <li>Since this portfolio predominantly invests in Mid-Cap stocks, the companies are likely to have a higher growth element due to their small size and potential for higher product penetration, increasing efficiency and improvement in cash flow.</li> </ol>

The key factors of the investment strategy for **Baroda Large Cap Fund** are :

1. Within the broader market, the Scheme expects to invest predominantly in companies forming part of Nifty 100. However, the Scheme may invest in other large cap companies.
2. The Scheme will invest 80% to 100% in Equity & Equity related instruments and 0% to 25% in debt & money market instruments.
3. The fund management style will be opportunistic with regard to market capitalization and not from a thematic or sector perspective.
4. The investment approach will be a blend of top down and bottom up, and stock selection will be done by following Growth At Reasonable Price (GARP) strategy.
5. The aim of the Scheme would be to deliver long-term capital growth from an actively managed portfolio.
6. The Scheme would focus on blue-chip stocks with sound financials and market leadership.

The key factors of the investment strategy for **Baroda Dynamic Equity Fund** are :

The Scheme has a dual objective of generating capital appreciation by investing in equity and equity related securities as well as generating income by investing in debt and money market securities, while attempting to manage risk from the market through active asset allocation. In order to achieve this process, the Scheme will follow a topdown and bottom-up strategy. The top-down process will lead to the active ongoing asset allocation decision between equity and debt and the bottom up process would lead to construction of the portfolio using specific securities.

The AMC has built a proprietary model for asset allocation based on the valuations and fundamentals of the companies. The valuation parameters chosen for the asset allocation are PE, P/BV, Dividend yield and the difference of earnings yield and 10 year Government Bond. The rationale behind choosing multiple valuation parameters instead of only PE, is to incorporate the status of the three important financial statements, the P&L, balance sheet and cash flow statement. Different weights have been assigned to different valuation parameters with more emphasis on the balance sheet and cash flow related parameters. The model will be revisited if needed, and adjustments made if needed, to ensure that the outcomes remain relevant to the market environment.

**Assumptions of the proprietary model**

- BSE 200 Index was chosen for the calculation of equity returns and for comparing the portfolio returns.
- 10 year G-sec was chosen for the calculation of debt returns.
- Valuation parameters were chosen on the trailing 12 months basis.

The model would be run on monthly basis to decide the asset allocation. Generally, once the allocation is fixed, it will not be changed till the next month except in case of extraordinary situations where extreme volatility in the markets would force a change in asset allocation.

**Equity allocation based on the model**

The gross equity exposure will be maintained in the range of 65% to 90% while the net equity exposure will be maintained between 0% to 50%. The difference between gross and net variation would generally be invested in arbitrage or in arbitrage equity mutual funds. The model would follow the matrix approach for asset allocation based on different parameters.

**Fixed Income allocation based on the model**

The exposure to Debt & Money Market Instruments including cash and cash equivalents will be maintained in the range of 10% to 35%. The model would follow the matrix approach for asset allocation based on different parameters.

Once the asset allocation has been decided based on the model, the portfolio would be constructed based on top-down as well as bottom-up approach using our core principle of investing, GARP (Growth at a Reasonable Price). The Scheme retains the flexibility to deviate from the asset allocation model, depending on the market conditions, market opportunities, applicable regulations and political and economic factors.

For detailed & scheme specific investment strategy, please refer the SIDs of the respective schemes.

The key factors of the investment strategy for **Baroda Large & Mid Cap Fund** are:

The investment strategy of the Scheme is as follows:

- The Scheme is a large and mid cap equity fund. Within the broader market, the Scheme expects to invest in Large Cap and Mid Cap companies as defined above. The Scheme will invest in equity and equity related instruments of medium and small enterprises of Indian corporates with high management credentials. Special focus will be given to strong corporate governance.
- The fund management style will be opportunistic with regard to market capitalization and not from a thematic or sector perspective. Approach to investments in mid-cap stocks would be based on long term compounding stories at reasonable prices. Long term horizon enables the portfolio to ride the economic / business cycle and to overlook volatility in short term due to external factors.
- The Scheme would focus on blue-chip companies with sound financials and market leadership while investing in large cap stocks, and on companies which are likely to have a higher growth element due to their small size and potential for higher product penetration, increasing efficiency and improvement in cash flows, while investing in mid cap stocks.
- Portfolio construction would entail top down approach towards deciding sector weights benchmarked against the index. Global and domestic economic, fiscal, forex, commodity and various other parameters will be evaluated. Thereafter, the direction of both global and domestic economy will be ascertained along with its impact on various sectors.
- Bottom up approach is used for identifying companies within the sector. We actively follow GARP strategy (Growth at Reasonable Price) where companies with a potential of above sector growth, improving efficiency and lower valuations are identified and evaluated for investment. Companies trading at a discount to their intrinsic value and have potential to turn around along with the cycle or because of its internal strength are considered to be value picks. Various fundamental and valuation parameters are considered in terms of revenue, assets and efficiency for identifying sectors and scrips which involves sales growth, Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) margin, Profit After Tax (PAT) margin, Price to Earnings (PE) ratio, Price to Book (PB) ratio, EV/EBITDA, Dividend Discount Model (DDM), economic value added, etc.

Please contact any of the Investor Service Centres / Registrar / Distributors or visit our website, [www.barodamf.com](http://www.barodamf.com), for further details.

### 2. KYC :

- To simplify KYC norms and make them more investor friendly and uniform across all intermediaries registered with SEBI, SEBI has recently laid down certain changes in the KYC process. The primary objective behind this is to eliminate duplication of KYC across intermediaries in the securities market. For this purpose, KYC registration is being centralized through KYC Registration Agencies ("KRA") registered with SEBI. Thus, each investor has to undergo a uniform KYC process only once in the securities market and the details would be shared with other intermediaries by the KRAs. Further, SEBI has mandated an In Person Verification ("IPV") of clients to be carried out as part of KYC. IPV shall be a one-time process, and once it is carried out by an intermediary, may be relied upon by other intermediaries also. For mutual funds, IPV may be carried out by the AMC or by the Registrar, or by Know Your Distributor ("KYD") compliant distributors who hold valid certifications issued by the National Institute of Securities Market ("NISM")/ Association of Mutual Funds in India ("AMFI") for their own clients or by Scheduled Commercial Banks (SCB).
- The following shall be applicable for investing in the Scheme under this KIM :

- For New Investors who are not KYC compliant under the erstwhile or new KYC norms:
  - KYC Application Form to be used, which is attached along with the application.
  - IPV/ Document verification to be done by the Registrar/AMC/KYD compliant distributors/SCBs.
  - Acknowledgement to be issued to the investor to facilitate subsequent investments from the investor.
  - KYC application and necessary documents should either come along with a financial transaction or when the account is opened. This is in line with demat and bank account opening process.
- For New Investors who have already done their KYC with any other SEBI registered intermediary under the new KYC norms: a. Such KYC compliant investors would not be required to do KYC again.
- For Existing Investors in the MF Industry: They will not be required to do KYC again.

- Investors who have completed their Centralised KYC (CKYC) and have obtained KYC Identification Number (KIN) from The Central Registry of Securitisation Asset Reconstruction and Security Interest of India (CERSAI) / Central KYC Records Registry (CKYCR), may quote their KIN while investing.
- KYC compliance with a KRA and enclosing the KYC Acknowledgement along with the Application Form are mandatory for all investors, including individuals, non-individuals, NRIs and channel investors, irrespective of the amount of application/value of transaction. Applicants applying for units through a PoA must ensure that the KYC Acknowledgement of both the issuer of the PoA and the holder of the PoA are enclosed along with the Application Form. The KYC Acknowledgement referred above will be issued by the KRA when an investor submits to the KRA, a KYC application and the prescribed documents. This KYC Acknowledgement is issued by the KRA as a token of having verified the identity and address of the investor(s) and for efficient retrieval of records.
- KYC status will be validated with the records of the KRA before allotting units. The Fund/AMC will not be held responsible and /or liable for rejection of KYC Form by the KRA/CERSAI. Where it is not possible to verify the KYC compliance status of the investor at the time of allotment of units, the Registrar/AMC/Trustee shall verify the KYC compliance status of the investor within a reasonable time after the allotment of units. In the event of non-compliance of KYC requirements, the Trustee / AMC reserves the right to freeze the folio of the investor(s) and effect mandatory redemption of unit holdings of the investors at the applicable NAV, subject to levy of exit load, if any. In case of an investor applying for CKYC effective February 1, 2017, if there is a mismatch in the name appearing in the CKYC application form and the one mentioned in the Proof of Identity (POI) document, CERSAI will reject the CKYC application. Investors are, therefore, advised to ensure that their names appearing in the CKYC application form and in the POI document are same.
- Please note that you need to comply with the KYC requirements by submitting requisite documents to the Registrar/AMC/Fund or any SEBI registered KRA and attaching the KYC Acknowledgement with the Application Form. For more information, please log on to [www.cvilindia.com](http://www.cvilindia.com) / [www.amfiindia.com](http://www.amfiindia.com), before investing.

**Applications are liable to be rejected if KYC requirements are not complied with by all the applicants, and if KYC acknowledgement is not enclosed with the Application Form.**

Please note that KYC applicability norms for various investor categories may change anytime in future. Hence, with a view to avoiding rejections, investors are requested to apprise themselves about KYC applicability before submitting their transactions.

- Third Party Payments -**
  - A payment towards subscription by cheque /RTGS/NEFT or any mode whatsoever is regarded as a 'Third Party' payment, if the payment is issued from a bank account other than that of the beneficiary investor. In order to safeguard the interests of applicants and avoid fraudulent transactions in any other name, the Fund does not generally accept Third Party Payments. The first applicant has to be one of the joint holders of the bank account from which the payment is made via cheque/Funds transfer/RTGS/NEFT. Therefore, please mention the bank account number, bank name & branch address from where the payment is issued and ensure that they match with details on the payment instrument, where applicable.
  - Where the payment instrument does not mention the bank account holder's name(s), please attach bank pass book copy/bank statement (showing the account number, account holder's name and address)/bank letter (mentioning details like bank account number, branch address, account type etc.), with a view to substantiating that the first applicant is one of the joint holders of the bank account concerned.
